AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Barrington, of which the above is a true summary for the fiscal year ending June 30, 1937, and find them correct in all respects.

AUSTIN L. CALIF,
BASIL E. ATWOOD,
Auditors.

July 10, 1937.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Barrington:

At a special meeting of the District, held October 9, 1937, it was voted to build a central school building, accept the offer of the Federal Administration of Public Works for a 45% grant, issue bonds, and constitute a building committee to consist of the School Board, Superintendent of Schools, and three citizens chosen by the School Board. The School Board chose Mr. Roy V. Swain (who had served as Chairman of the special Investigating Committee), Mr. Norman Berry, and Mr. Leon Calef. Mr. Swain was elected chairman of the committee. This committee has selected a site, engaged an architect, approved plans, issued bonds, negotiated with the P. W. A., secured an extension of the debt limit, and commenced the project. It is expected that winter construction will be avoided, and that the building will be ready for occupancy in the fall. Further details are available from the committee, for whose report of progress opportunity is provided in the warrant. The committee is still deep in the midst of the important decisions and mass of detail connected with any such project.

In constructing the School Board's Estimate for next year, there are some uncertain factors connected with the new situation, of course. However, the School Board has reviewed similar situations in other towns, and consulted the State Department of Education, the Architect, insurance agents, other members of the Building Committee, etc. The Board has made a transportation survey, using maps and actual trips over the roads. Much additional work must be done on this survey before final arrangements can be made. A substantial advancement in the amount of state aid has been secured. The total expected increase in the

appropriation is less than the amount required for payments on the principal and interest and insurance on the new building.

The examination conducted by the School Nurse, Miss Margaret MacDonald, found the health of the children normal, for the most part. This examination was supplemented this year by the Audiometer, an instrument for accurate group measurement of hearing. Nineteen pupils received treatment at the Dental Clinic, which was sponsored by the Woman's Club and the Garden Club.

This year marks the 150th anniversary of the Constitution of the United States, ratified June 21, 1788, by New Hampshire as the deciding state. Besides the regular work in history and eighth grade civics, the school will observe the sesquicentennial with special educational projects.

Opportunities for adult education by mail are multiplying. Persons wishing to choose only reliable offers for such service would do well to communicate with the National Home Study Council, Washington, D. C., for a list of such agencies.

This is a critical year for education in Barrington. Those entrusted with the responsibility will do their best for the interests of the present and coming generations, and depend upon the interest and cooperation of all citizens.

Respectfully submitted,

CHESTER W. DOE,
Superintendent of Schools.
